FIRST MINING FINANCE CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited - expressed in Canadian dollars unless otherwise noted)

1. NATURE OF OPERATIONS

First Mining Finance Corp. (formerly Albion Petroleum Ltd. (“Albion”)) (the “Company” or “First Mining”) was incorporated pursuant to the provisions of the Business Corporations Act (Alberta) on April 4, 2005 and completed its initial public offering as a Capital Pool Company (“CPC”) on September 30, 2005. As a CPC, the Company’s only business had been to identify and evaluate businesses or assets with a view of completing a Qualifying Transaction.

On March 30, 2015, the Company completed the acquisition of all of the issued and outstanding shares of a private company, KCP Minerals Inc. (“KCP”) (formerly Sundance Minerals Ltd. (“Sundance”)) through a reverse takeover arrangement (the “RTO”), constituting its Qualifying Transaction under the applicable policies of the TSX Venture Exchange (“TSXV”). Upon completion of the RTO, the shareholders of KCP obtained control of the consolidated entity. Under the purchase method of accounting, KCP was identified as the acquirer, and accordingly the entity is considered to be a continuation of KCP with the net assets of the Company at the date of the RTO deemed to have been acquired by KCP. The 2015 comparative figures in the condensed interim consolidated financial statements include the results of operations of KCP prior to the RTO date of March 30, 2015.

The Company’s principal activity is the acquisition of high-quality mineral assets, and exploration and evaluation of its North American property portfolio. During 2015, the Company acquired Coastal Gold Corp. (“Coastal”) on July 7, 2015, Gold Canyon Resources Inc. (“Gold Canyon”) on November 13, 2015, and PC Gold Inc. (“PC Gold”) on November 16, 2015. In the six months ended June 30, 2016, the Company completed acquisitions of Goldrush Resources Ltd. (“Goldrush”) on January 7, 2016, Clifton Star Resources Inc. (“Clifton”) on April 8, 2016, the Pitt Gold exploration property from Brionor Resources Inc. (“Brionor”) on April 28, 2016, Cameron Gold Operations Ltd. (“Cameron Gold”) from Chalice Gold Mines Ltd. (“Chalice”) on June 9, 2016, and Tamaka Gold Corporation (“Tamaka”) on June 16, 2016.

First Mining is a public company listed on the TSXV under the symbol “FF”, on the OTCQX under the symbol “FFMGF”, and on the Frankfurt Stock Exchange under the symbol “FMG”.

The Company’s head office and principal address is located at 925 West Georgia Street, Suite 1805, Vancouver, British Columbia, Canada, V6C 3L2.

2. BASIS OF PRESENTATION

These condensed interim consolidated financial statements have been prepared in accordance with, International Accounting Standard 34, *Interim Financial Reporting* (“IAS 34”) using policies consistent with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). Except as described in Note 3, the Company uses the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended December 31, 2015, which should be read in conjunction with these condensed interim consolidated financial statements.

These condensed interim consolidated financial statements have been prepared on a going concern basis under the historical cost method, except for financial instruments classified as fair value through profit or loss, which are stated at their fair value. The condensed interim consolidated financial statements are presented in Canadian dollars, which is the functional currency of the Company’s Canadian entities. The functional currency of the Company’s material foreign subsidiaries is US dollars.

The preparation of condensed interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

FIRST MINING FINANCE CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited - expressed in Canadian dollars unless otherwise noted)

2. BASIS OF PRESENTATION (continued)

These condensed interim consolidated financial statements were approved by the Board of Directors on August 11, 2016.

3. ACCOUNTING POLICIES

These condensed interim consolidated financial statements have been prepared using accounting policies consistent with those used in the Company's annual financial statements, except as described below.

Initial Adoption of Accounting Standards

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting periods beginning before or on January 1, 2016. The following new standards, amendments and interpretations that have been adopted for the Company's current fiscal year have not had a material impact on the Company:

IFRS 10 Consolidated Financial Statements

The main consequence of the amendments is that a full gain or loss is recognized when a transaction involves a business (whether it is held in a subsidiary or not). A partial gain or loss is recognized when a transaction involves assets that do not constitute a business, even if the assets are held in a subsidiary. The amendments may impact the Company in respect of future sale or contribution of assets with its associates or joint ventures.

Amendments to IAS 1 Presentation of Financial Statements

On December 18, 2014 amendments were made to IAS 1 as part of a major initiative to improve disclosure requirements in IFRS financial statements. The amendments clarify the application of materiality to note disclosure and the presentation of line items in the primary statements provide options on the ordering of financial statements and additional guidance on the presentation of other comprehensive income related to equity accounted investments.

Accounting Standards Issued But Not Yet Applied

The following are accounting standards anticipated to be effective January 1, 2017 or later:

IFRS 9 Financial Instruments

IFRS 9 reflects all phases of the financial instruments project and replaces IAS 39 Financial Instruments: Recognition and Measurement and all previous versions of IFRS 9. The standard introduces new requirements for classification and measurement, impairment, and hedge accounting. IFRS 9 is effective for annual periods beginning on or after January 1, 2018, with early application permitted. The Company is currently evaluating the impact this standard is expected to have on its consolidated financial statements.

IFRS 15 Revenue from Contracts with Customers

The standard replaces IAS 18 Revenue and IAS 11 Construction Contracts, and contains a single model that applies to contracts with customers and two approaches to recognizing revenue: at a point in time or over time. The model features a contract-based five-step analysis of transactions to determine whether, how much and when, revenue is recognized. New estimates and judgmental thresholds have been introduced, which may affect the amount and/or timing of revenue recognized. IFRS 15 is effective for annual periods beginning on January 1, 2018. The Company is currently evaluating the impact this standard is expected to have on its consolidated financial statements.

IFRS 16 Leases

The new standard will replace IAS 17 Leases and eliminates the classification of leases as either operating or finance leases by the lessee. The treatment of leases by the lessee will require capitalization of all leases resulting in an accounting treatment similar to finance leases under IAS 17 Leases. Exemptions for leases of very low value or short-term leases will be applicable. The new standard will result in an increase in lease assets and liabilities for the lessee.

FIRST MINING FINANCE CORP.

NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited - expressed in Canadian dollars unless otherwise noted)

3. ACCOUNTING POLICIES (continued)

Under the new standard the treatment of all lease expense is aligned in the statement of earnings with depreciation, and an interest component recognized for each lease, in line with finance lease accounting under IAS 17 Leases. IFRS 16 will be applied prospectively for annual periods beginning on January 1, 2019. The Company is currently evaluating the impact this standard is expected to have on its consolidated financial statements.

4. ACQUISITION OF GOLDRUSH RESOURCES LTD.

On January 7, 2016, the Company completed the acquisition of all the outstanding common shares of Goldrush Resources Ltd. ("Goldrush") on the basis of 0.0714 common shares in the capital of First Mining for each Goldrush share by way of a plan of arrangement under the Business Corporations Act (British Columbia) (the "Goldrush Transaction"). The Goldrush Transaction was conducted by way of a court-approved plan of arrangement, which resulted in Goldrush becoming a wholly-owned subsidiary of First Mining. No replacement options or warrants were required as part of the Goldrush Transaction.

For accounting purposes, the acquisition of Goldrush has been recorded as an asset acquisition as Goldrush is not considered to be a business when applying the guidance within IFRS 3 *Business Combinations* ("IFRS 3").

Consideration paid:

Fair value of 11,950,223 common shares issued	\$	4,780,089

- (1) Current other receivables includes a balance of USD\$250,000, which represents the consideration for title transfer of the Goldrush West Africa SARL Rima permit, and is expected to close late in the third quarter of 2016.
- (2) The Nord Prognoz receivable relates to USD\$500,000 owing from Nord Prognoz Ltd ("Nord Prognoz"), as the residual consideration payable to Goldrush for the sale of its then wholly-owned subsidiary Goldrush Burkina SARL in 2014. The amount is held in escrow and subject to any deductions for certain liabilities that occurred prior to closing the Goldrush Burkina SARL transaction. Terms of the contract specify that the amount owing will be released from escrow on December 31, 2017.
- (3) The Company, through its Mexican subsidiaries, pays value-added tax on the purchases of goods and services at a rate of 16%. The amount paid or payable is recoverable and the Company has been successful in applying for and receiving refunds in the past from the local tax authorities, usually after more than one year. However, there is no guarantee this will continue and, as such, these receivables are recorded as a non-current asset.

18. COMMITMENTS AND CONTINGENCY**COMMITMENTS**

The Company has commitments in respect of office rent, equipment leases, and transaction costs incurred through its acquisitions as follows:

	Expected payments due by period as at June 30, 2016		
	1 year	2 – 3 years	4 – 5 years
Office premises (PC Gold acquisition)	\$ 78,465	\$ 90,063	\$ -
Equipment leases (Gold Canyon acquisition)	43,755	-	-
Contractual payments from acquisitions:			
Tamaka – debenture liabilities	137,990	427,980	2,364,080
Total	\$ 260,210	\$ 518,043	\$ 2,364,080

The Company has a sub-lease agreement for the use of office premises in Toronto, Ontario, for \$4,000 per month until October 30, 2018. The amount of the total sub-lease payments committed is \$48,000 for the first year from June 30, 2016, and \$64,005 for the second and third years from June 30, 2016.

CONTINGENCIES

On June 16, 2016, the Company acquired the business and assets of Tamaka as a result of an amalgamation between Tamaka and a wholly owned subsidiary of the Company. Tamaka was party to three debentures with an aggregate principal amount of approximately \$2.1 million, payable to Kesselrun Resources Ltd. (TSXV: KES) (the "Debentures") which debentures remain outstanding and are liabilities of a subsidiary of the Company. Kesselrun has alleged that the debentures were required to be converted into common shares of the Company as a result of the amalgamation transaction with Tamaka. The Company disagrees with this position and takes the position that the Debentures have not been converted and remain outstanding.

The Company has engaged legal counsel and at this time cannot definitively predict the outcome of this dispute, however, the maximum conversion would approximate \$4.0 million in common shares as at June 30, 2016.
